HIMA-San Pablo in Caguas inaugurates Invasive Radiology Center

Hospital system HIMA-San Pablo recently inaugurated an Invasive Radiology Center in its Caguas hospital. The center is equipped with the latest medical technology such as the digital General Electric Innova 4100 machine. According to hospital sources, this is the first fully digital system for angio-vascular applications in Puerto Rico. "This system allows us to perform minimally invasive diagnostic tests in a more precise and quicker way," said Carlos Piñeiro, president & chief operating officer of Grupo HIMA-San Pablo.

San Francisco Hospital inaugurates Women's Care Center

Río Piedras' San Francisco Hospital inaugurated its Women's Care Center yesterday. The center, said hospital President Milton Cruz, will offer services such as stereotactic biopsies and mammograms. Cruz also told CARIBBEAN BUSINESS that Interim Staffing Services, headquartered at the hospital, already has begun operating and has more than 20 employees working in different areas in the medical field.
